DETAILED ACTION

This is a second office action for serial number 10/828891, entitled Mounting Structure, filed on April 21, 2004.

Response to Amendment

In response to the examiner's office action dated November 14, 2004, the applicant has amended claims 1, 2 and 6.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-3, 5 and 6 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Marinoni of U.S. Patent No. 6,745,538.

Claims 1-3, 5 and 6 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of Marinoni of U.S. Patent No. 6,745,538. Although the conflicting claims are not identical, they are

Art Unit: 3635

not patentably distinct from each other because each claims a mounting structure which is arranged on two abutting glass panels comprising two pairs of clamping plates with plates of one of the pairs being fixed to opposite sides of one of the glass panels, the inner sides of the clamping plates abutting the corresponding sides of the glass panels, the clamping plates each have, at the outer sides thereof, undercut longitudinal slots with undercut shoulders, a connecting plate, locking screws which are through the connecting plate to clamp the connecting plate against the inner sides of the undercut shoulders of the respective undercut slot in the clamping plate; the clamping plates abut each other in an angle and the connecting plate has an angle; the connecting plate has two recesses which are formed in a leg protruding from the undercut longitudinal slot of the associated clamping plate, into which recesses two undercut shoulders of the longitudinal slot of the other clamping plate engage or are received.

Allowable Subject Matter

Claims 4 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 3/31/05 have been fully considered and they are persuasive; however, since claims 1-3, 5 and 6 stand rejected under an obviousness-type double patenting rejection on the grounds that the claims are unpatentable over claim 1 of Marinoni, US patent # 6,745,538, and Marinoni is the assignee of the present application, a terminal disclaimer is requested in compliance with 37 CFR 1.321 (6).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
